

Buying a Laptop

Part 1: Research

There are hundreds of makes and models of laptops out there now, and at a wide range of prices. Your task is to choose a price range and then research two different makes of laptops that are in your price range. Compare the features and choose which one suits you best.

Price range: _____

	Laptop 1	Laptop 2
Price		
Make		
Features		

Part 2: Purchase

1. After you decide on what laptop to buy, search around for the best price. See if there is a site in the US selling the same laptop.

Best Price from Canada: _____

Best Price from US: _____

2. After you apply the exchange rate and any shipping fees, is it cheaper to buy the laptop in Canada or from the US?
